

FOR IMMEDIATE RELEASE

BEL & LPGCL BAG HONOURS AT 'CEE 3RD NATIONAL ENERGY EFFICIENCY AWARDS 2023'

New Delhi, December 4: Bajaj Group power entities Bajaj Energy Limited (BEL) and Lalitpur Power Generation Company Limited (LPGCL) have clinched the prestigious Council of Enviro Excellence (CEE) awards. Demonstrating excellence in various categories, the two power companies secured top honours at the '3rd National Energy Efficiency Awards 2023', organised by CEE in New Delhi on December 1.

BEL received the coveted 'National Energy Efficient Team Of The Year' award, recognising its outstanding dedication, innovation, and sustained excellence. Additionally, it claimed the top spot in the 'Operational Excellence in National Energy Efficiency Unit' category, lauded for its exceptional performance and remarkable achievements.

LPGCL was honoured with the 'National Energy Efficient Plant of the Year' award, showcasing remarkable contributions in this category. Emerging as the leader among 152 applicants, this accolade underscores LPGCL's unwavering commitment to excellence and sustainability in the power-generation sector.

Expressing gratitude, BEL Managing Director, Shri Vinay Kumar Singh Bankoti, stated, "We humbly accept the honours with gratitude. These awards validate the unwavering dedication of our exceptional team and the support of our invaluable stakeholders. Our commitment to advancing energy efficiency and operational excellence remains resolute, propelling us towards a sustainable future through innovation, collaboration, and environmental stewardship. This achievement is not the culmination of our journey but a guiding beacon to new heights in energy efficiency and sustainability."

LPGCL Chief Executive Officer, Shri Alhad Narayan Sar, echoed this sentiment, saying, "We are humbled by this recognition, which underscores the outstanding achievements of LPGCL

in energy efficiency. It reflects our dedication to sustainability and excellence, making a positive impact in the power sector. Congratulations to Team LPGCL!"

The award ceremony celebrated the relentless efforts of both Bajaj Group's power companies in adopting energy-efficient practices, promoting environmental best practices, and contributing to the nation's energy goals.

BEL and LPGCL extend heartfelt gratitude to their employees, whose dedication and hard work played a pivotal role in achieving this milestone. Acknowledging the support of their esteemed client, the Uttar Pradesh Power Corporation Limited (UPPCL), both entities underscored their commitment to providing uninterrupted, efficient, and affordable power supply to the state of UP. Bajaj Group reaffirmed its ongoing pursuit of excellence in operations, contributing to the growth and development of the region.

Remaining at the forefront of innovation and sustainable practices, both BEL & LPGCL continue to set new benchmarks in the power-generation industry.

About BEL & LPGCL:

BEL & LPGCL illuminate millions of households in the state of Uttar Pradesh. With six power plants boasting a combined capacity of almost 2,500 megawatts, they meet over 10% of the state's electricity requirements. LPGCL's largest unit, a super-critical unit with an installed capacity of 1,960 megawatts, contributes significantly to this capacity.
